BOKE

Heavy-Duty Electric Lift Table

Product Specifications

- Tabletop Size: 1200 × 700 mm
- Lifting Height: 690–1150 mm
- Load Capacity: 180 kg

Product Features

- Designed as an auxiliary operation table for press riveting machines, suitable for press riveting of large-size metal sheets.
- Electric control system with 3 programmable height memory settings for quick and accurate positioning.
- Easy operation, significantly reducing manual labor and improving work efficiency.
- The tabletop is evenly covered with high-density brush strips, effectively preventing scratches on sheet surfaces during movement.
