MERIDIAN STANDARD MACHINERY

PRODUCT OVERVIEW

MOTORIZED LIFT TABLE

Adjustable support for press riveting operations

180 kg	690–1150 mm	1200 × 700 mm
LOAD CAPACITY	LIFTING HEIGHT	TABLETOP SIZE

POSITION. SUPPORT. PROTECT.

An electrically adjustable auxiliary table designed to support large metal sheets during press riveting.

Repeatable working heights

Three programmable height memory settings help operators return to preferred working positions.

Brush-covered tabletop

High-density brush strips support sheet movement and help protect metal surfaces from scratches.
